ANOTHER OBM SYSTEM FROM TRAMANCO OBTAINS TYPE-APPROVAL

Transport Certification Australia (TCA) today announced the type-approval of another On-Board Mass (OBM) System from Tramanco Pty Ltd.

The Chief Executive Officer of TCA, Chris Koniditsiotis, said “Tramanco Pty Ltd is to be applauded for presenting The CHEK-WAY Eliminator with dual input Smart-AMP for independent assessment and type-approval by TCA.”

There are now two types of OBM Systems supplied by Tramanco Pty Ltd, with differing functionality, which have been type-approved:

Supplier	OBM System Model	Category*	
Tramanco Pty Ltd	The CHEK-WAY Eliminator	Category A	
	The CHEK-WAY Eliminator with dual input Smart-AMP		

* There are [three categories of TCA type-approval](#). Category A OBM Systems electronically display mass information to drivers and/or loaders.

Type-approved OBM Systems are identified by the ‘TCA Type-Approved’ logo (as above).

The Managing Director of Tramanco Pty Ltd, Roger Sack, said, “We are proud to achieve a further type-approval (Category A) for The CHEK-WAY Eliminator with dual input Smart-AMPs.”

“The dual input Smart-AMP version of The CHEK-WAY Eliminator provides greater flexibility for users with different needs.”

Mr Koniditsiotis explained that, “Type-approval involves an assessment OBM Systems based on the performance-based requirements contained in the OBM System Functional and Technical Specification.”

“The Specification comprises requirements which relate to the accuracy, reliability and robustness – as well as tamper evidence and security relevant to the type-approval category – of OBM Systems.”

“TCA type-approval also extends to a business and probity assessment of OBM System suppliers, which verifies the capacity of suppliers to meet the expectations of consumers and end-users.”

“With OBM Systems serving many end user needs, type-approval caters for a range of uses without being hardwired to one policy need,” said Mr Koniditsiotis.
