Road Infrastructure Management
An application of the National Telematics Framework

Quick Start Guide for Service Providers

What do I need
to register?

It's easy to get started!

1. Contact Transport Certification Australia (TCA) and ask for an information pack:
P: (03) 8601 4600
E: tca@tca.gov.au

2. Complete the application form and return to TCA. You will need to self-assess your conformance with the requirements of the RIM specification (included in the information pack).

3. A member of our team will be in touch to complete the registration process with you.

Once registered, we'll provide you with a RIM icon and you can start enrolling vehicles into RIM.

How can I get more information?

RIM is an operating requirement for specific heavy vehicle access arrangements.

Information about these arrangements are kept up-to-date on our website: **www.tca.gov.au/rim**

If you'd like to speak with someone, give us a call at TCA on **(03) 8601 4600** or email **tca@tca.gov.au.**
